SUMMARY

I'm a 3rd-year Computer Science student with a strong passion for coding and technology. Over the past few years, I've gained practical experience in full-stack development, data structures, and machine learning. I enjoy building projects from scratch and finding creative solutions to technical problems. Always eager to learn, I'm now looking for opportunities to apply my skills in challenging environments and contribute to impactful projects.

WORK EXPERIENCE

Experience

- Startup Lead-Devmeup | [Bhubaneswar] -Launched an EdTech micro-enterprise and manage a team.
- Developer Society Lead-[GCE KJR]-Organize tech workshops and mentor peers.
- Intern/Part-Time Developer-Created websites and apps for local shops and stores.

Projects

- **Netflix Front-End Clone:** Developed a clone of Netflix using HTML, CSS, and JavaScript for a seamless user experience.
- **Login/Sign-Up Page:** Created a responsive login and sign-up page with HTML and CSS, focusing on user-friendly design.
- **Weather Web App:** Built a web app providing real-time weather updates using JavaScript and APIs.
- **Devmeup Website:** Designed the official website for Devmeup, highlighting services in the EdTech sector.
- **Management Projects:** Developed various management projects focused on enhancing team collaboration and efficiency in project execution.
